

recovery just got a little easier

chiropractic treatment program

Introducing the easier way to get chiropractic treatment for injuries caused by a car crash.

Under this program, ICBC pays the chiropractor directly so you don't have to pay out of your pocket and get reimbursed later.

All you need to do is provide your claim number to your chiropractor so they can confirm that you're covered. After that, all chiropractic fees are covered and you're pre-approved for as many visits as needed.

How to participate

This program is only available through participating chiropractors. Ask your adjuster for a list of participating chiropractors or go to **icbc.com** and search "*find a chiropractor.*"

No money out of your pocket, and no ongoing approvals, so you can focus on your recovery.
